The Face of Real Estate Transformations
EQUIALT

While some can't visualize converting distressed properties into valuable assets, EquiALT — Brian Davison, Tony Kelly, Bertram Nkya and Gabe Caldwell — provides the expertise to make reality out of things developers haven't even dared to dream. From transforming Tampa's oldest home (1842) into a livable/workable condition to improving neighborhood home values by buying/renovating neighboring foreclosed homes to building new homes on abandoned lots, EquiALT uses the power of "inspired vision" to transform real estate like no other.
